

VARSI STICK

Think, Play, Fetch

The Varsi Stick From AiKiou is perfect for dogs who like to run and fetch.

It's made out of a thick and rigid material which makes it resistant and floatable. Because dogs like to run and fetch, we decided to create a new toy that will let them do just that. Not only does it float, this TPR enables it to bounce around while giving enough grip so you can play tug of war with your dog. You can even loop two of them together to enhance the game and have your dog try to unwrap them.
