

ZEN CLIPPER

Simply revolutionary

Zen Clipper a revolutionary new pet nail clipper that is designed to clip just the tip of the nail.

Zen Clipper has a patent-pending conical blade that only allows the tip of the pet's nail into the cutting area, it's like putting the tip of the nail into a small funnel. You clip just the tip and avoid the quick. It takes the anxiety out of clipping nails. The stainless-steel blade design shears and does not crush the nail like other standard clippers

Zen Clipper is available in 7 sizes can be used on dogs, birds, reptiles and small animals like ferrets and rabbits.

Zen Clipper approaches quietly, cuts almost silently without frightening your darling

Never worry about clipping the quick again

Clips the Tip not the Quick

Stress-Free trimming

ZenClipper™
the worry-free nail trimmer
